## A "Good Time" Necessary.

Do not refuse your growing boy or girl legitimate pleasures. Young folks who are "kept down" do not stay there long. Encourage your boy or girl to have a good time in the right way, and know who his or her chums are. Invite these chums to your home, and let the young folks sing and play and have a good time together. Boys and girls between fifteen and twenty need looking after, and a good mother means more to young folks between those years than all the rest of the world combined.
